- Re: Elk Rapids. Note the frequent "I did not see this" comment. Bracketed [] data are from a 1933 DAR Survey of burial records. This survey was generally very accurate and I have included their data. However, since I did not personally see the burial records, I did not treat the data as verified unless I had other corroborative data.

The Russell Family Cemetery data is also from a 1933 DAR survey although the ladies were accompanied By a family member.
