<b>Name</b>	<b>Date</b>	<b>Event</b>	<b>Township unless otherwise noted</b>	<b>Data</b>
				<p><b>Notes:</b></p> <p>?? = Data whose legibility is uncertain</p> <p>When searching for a name, be aware of <b>alternative</b> spellings!</p> <p>These are extracted entirely from hand-written copies of hand-written records. I cannot vouch for spelling or entry accuracy. In rare instances, I have corrected the spelling and then, only in instances, where the spelling in the record was at wide variance from that of a gravestone.</p> <p>Marriages: The bride's name is usually shown cross-referenced to the Groom. Where possible, I have shown the denomination of the pastor.</p> <p>These births, marriages and deaths cover the 26-year period from 1867 through 1902.</p> <p>Although records often indicate that one is "Indian" or "Red" or "mulatto", I have declined to use these words in my database and they will not appear here.</p> <p>Similarly, birth records occasionally indicate that a birth was illegitimate, I have declined to so indicate births herein. Whatever data is presented, I have put down except for that word. If a descendant desires, they may contact me directly about that specific reference.</p>
